

Jürgen Seupel, Analytik Jena sales representative and Helga Nürnberger

The tenth and final winner of an elegant watch from Mühle-Glashütte is Ms. Helga Nürnberger. She was delighted when she was informed of her good fortune by our sales representative, Mr. Seupel.

Ms. Nürnberger had followed the lottery regularly on www.my-specord.de for the last several months. She had entered the lottery in April of 2010 while attending analytica in Munich. As she had already worked professionally with measuring technology from Analytik Jena for many years, she took advantage of the opportunity to inform herself about the new developments at Analytik Jena during the trade fair. And so she was introduced to the new SPECORD® PLUS and filled out a ticket for our SPECORD® lottery at the booth.

Ms. Nürnberger regularly examines samples with the predecessor model of the new SPECORD® PLUS. She works for Wismut GmbH, conducting analysis during cleanup and has supervised various cleanup measures for former mining areas.

We wish Ms. Nürnberger all the best with her new watch, the sophisticated City 99 women's watch from Mühle-Glashütte®.
